GoJak® HD Series

Built for heavy-duty use; with reinforced axles and glass-filled nylon casters. The G9516 adds a patented low-gear design for easier lifting under load.

G9516

G9516 Two-Speed Cam Mechanism

G7016

Model	Max. Vehicle Weight	Max. Tread Width	Max. Tire Height	Per Unit Lift Capacity
G7016	7000 lbs.	16 in.	36 in.	1750 lbs.
G9516	9500 lbs.	16 in.	36 in.	2375 lbs.

GoJak® Performance Series

Engineered for low-profile, wide-tire performance vehicles.

The GoJak® Performance Series handles tires up to 20" wide and the lowest clearances in the GoJak® range.

G4520

G6520

Model	Max. Vehicle Weight	Max. Tread Width	Max. Tire Height	Per Unit Lift Capacity
G4520	4500 lbs.	20 in.	36 in.	1125 lbs.
G6520	6500 lbs.	20 in.	36 in.	1625 lbs.

GOJAK®

GoJak® operates on a bi-directional ratchet system. Mechanical leverage on the foot pedal progressively squeezes the tire between two rollers, lifting the vehicle smoothly off the ground. The rollers touch only the tire, never the frame, for safe and stable movement.

Using a purely mechanical design, that requires no power, hydraulics, or air, makes our GoJak® reliable anywhere you work.

Now available in three series to fit your specific needs: HD Series for heavy-duty use, Performance Series for low-profile, wide-tire vehicles, and Pro Series, our original design thats built for everyday shop and towing work.

Proudly made in the USA and backed by a ***7-year limited warranty.***

GoJak® Pro Series

The original GoJak® is still the ideal choice for towing, recovery, and broad shop applications.

Featuring larger rollers and wheels to tackle rough, uneven surfaces with ease. Always durable, reliable, and built to work as hard as you do.

Model	Max. Vehicle Weight	Max. Tread Width	Max. Tire Height	Per Unit Lift Capacity
G5211	5200 lbs.	11 in.	36 in.	1300 lbs.
G6313	6300 lbs.	13 in.	36 in.	1575 lbs.

Accessories & Storage

G678R

Lighter, stronger, and easier to use. The G678R storage cart's patented pocket design keeps GoJaks® secure and easy to remove, with a reinforced structural tube frame and locking caster for added stability.

GOBKT

Provides secure mounting of your GoJak® to walls, service trucks, or shop carts, ensuring your units remain organized, protected, and within easy reach.

GOTOW

Attaches to your flatbed, providing a secure way to lock and store your GoJak® while on the move.

NEW Product

GX-T Series - GoJak® Tire Dolly

The GX-T-54-1500 is purpose-built for fast, one-person handling of aircraft, military, and heavy commercial tires. Compact and light enough to fit on a maintenance trailer, allowing for simple but full-capacity tire handling both on the tarmac, and the hangar floor.
